DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

The phrase "now abandoned" has been entered after "09/849,520" on page 2, line 2 of the specification.

Allowable Subject Matter

Claims 13-24 are allowed. The following is an examiner's statement of reasons for allowance: The prior art of record does not disclose a process for capturing mercury and optionally arsenic from a hydrocarbon-containing initial feed that involves an initial step of vaporizing said hydrocarbon-containing initial feed followed by subsequent condensation of the resultant vaporized hydrocarbon-containing feed and thereafter treating the condensate by bringing the condensate into contact with hydrogen and a catalyst so as to at least partially decompose residual organometallic compounds into mercury.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
